WORK EXPERIENCE

Lexia Learning

July 2025 – Present

- Ed-tech leader serving 7M+ students; modernizing the *myLexia* platform for 300k+ educators.

Senior Software Engineer

Remote

- Optimized critical "Manage" workflows by re-architecting data fetching and loading states, reducing page load times by ~90% (10s to <1s) and eliminating perceived latency across the app.
- Engineered a net-new native browser PDF reporting pattern to replace legacy libraries (pdfmake), enabling web component reuse and securing the on-time delivery of the critical Winter Release.
- Accelerated the 2-year migration of a 13-year-old codebase by enforcing strict TypeScript/Linting standards and optimizing CI pipelines, resulting in a 33% faster build time and higher code consistency.
- Revitalized team processes by introducing Sprint Reviews, Retrospectives, and "Definition of Done" standards.

Fly Bodies

May 2024 – July 2025

Director of Engineering

Remote / Los Angeles, CA

- Launched FlyFit, a B2B mobile app with fitness challenges and mileage competitions for teams & companies.
- Grew to 2,000+ organic downloads and \$40K+ in revenue in year one with zero marketing spend.
- Built the app (React Native, Firebase, TypeScript) with Apple/Google Health and Fitbit integrations.
- Developed a real-time, serverless backend (Node.js, Firestore, GCP) supporting 500+ MAUs, with zero-refresh UX for challenge feeds and leaderboards.
- Boosted engagement 210% by designing gamification features such as streaks, quizzes, goals, and notifications.
- Owned full product lifecycle from roadmap to CI/CD (GitHub Actions, Expo EAS) and weekly releases.
- Mentored 2 interns and worked with dev/design contractors to translate user needs into product features.

Pariveda Solutions

Jul. 2020 – May 2024

Senior Software Engineer | Aug, 2022 – May 2024

Dallas, TX

- *Southwest Airlines*: Built a GraphQL microservice in AWS with Node.js/TypeScript to expose Workday profile data for 90,000+ employees. Developed an event-driven pipeline using Kafka, Python, Java, and AWS to stream real-time employee data changes, enabling internal systems to stay in sync instead of requesting batch data.
- *Girl Scouts*: Managed and coached a team of 6 interns to centralize and automate 150+ business workflows via a SharePoint-based Process Library & Power Automate, significantly improving GSNETX operational efficiency.
- *Toyota*: Performed technical analysis and architecture assessment for Toyota FS, identifying key bottlenecks and recommending enhancements to support 1,500 TMNA dealerships and scale to support 300K+ daily quotes.

Software Engineer | July, 2020 – Aug, 2022

Dallas, TX

- *UnitedHealthcare*: Led the front-end migration of UHC's \$200M+ DTC ecom platform from AngularJS to React as Tech Lead, delivering a 5× faster UI, responsive design, and modern component architecture.
- *Optum*: Developed an E2E Medicare compliance ETL platform for Optum's 10M+ members using Python, Terraform, Azure Data Factory, and Azure Pipelines in a data lake architecture. Promoted to Team Lead, driving project delivery, coaching developers, and leading client interactions while being an IC.
- *HealthMarkets*: Built a quoting wizard for ecom site, increasing conversion by 30%. Implemented Google Analytics tracking in React and maintained .NET/C# backend integration endpoints with insurance providers.

EDUCATION

Baylor University

May 2020

Bachelor of Science, Computer Science - Minor in Business Administration

Waco, TX

- **GPA: 3.8/4.0;** *Cum Laude*; Dean's List 2018-2020
- *Capstone project:* Architected & led a team of 6 to develop a full-stack React app that showcased capstone projects for a university by building a white-label, customizable, CMS driven platform using Strapi, Node.js, and Docker.

SKILLS & INTERESTS

- **Hard Skills:** (*proficient*) TypeScript, JavaScript, React, React Native, Expo, HTML, CSS, Tailwind, Node.js, GCP, AWS, NoSQL, SQL, Firebase, Python, Java, DevOps, Cloud Architecture, Next.js, Angular, (*familiar*) Azure, ETL Pipelines, C#, Backstage, Storybook, Jest, Redux, MaterialUI, IAC, Terraform, FP, Power Automate
- **Professional Strengths:** Product Thinking, Driving Innovation, Excellence, Extreme Ownership, Mentoring
- **Interests:** Marathon Running, Coding mentor, Golf, HIIT, Meditation, EDM/Festivals, VR games
- **Other Projects:** Portfolio website (Next.js), Pariveda developer portal (Backstage, React), Pariveda internship (.NET, C#, Angular)
